

ZEBRA

Achieve Next Level Performance

With Zebra's Fixed Industrial Scanning and Machine Vision Solutions

Manufacturers and logistics companies are facing tough challenges:

Shorter timelines

Production increases

Rising quality expectations

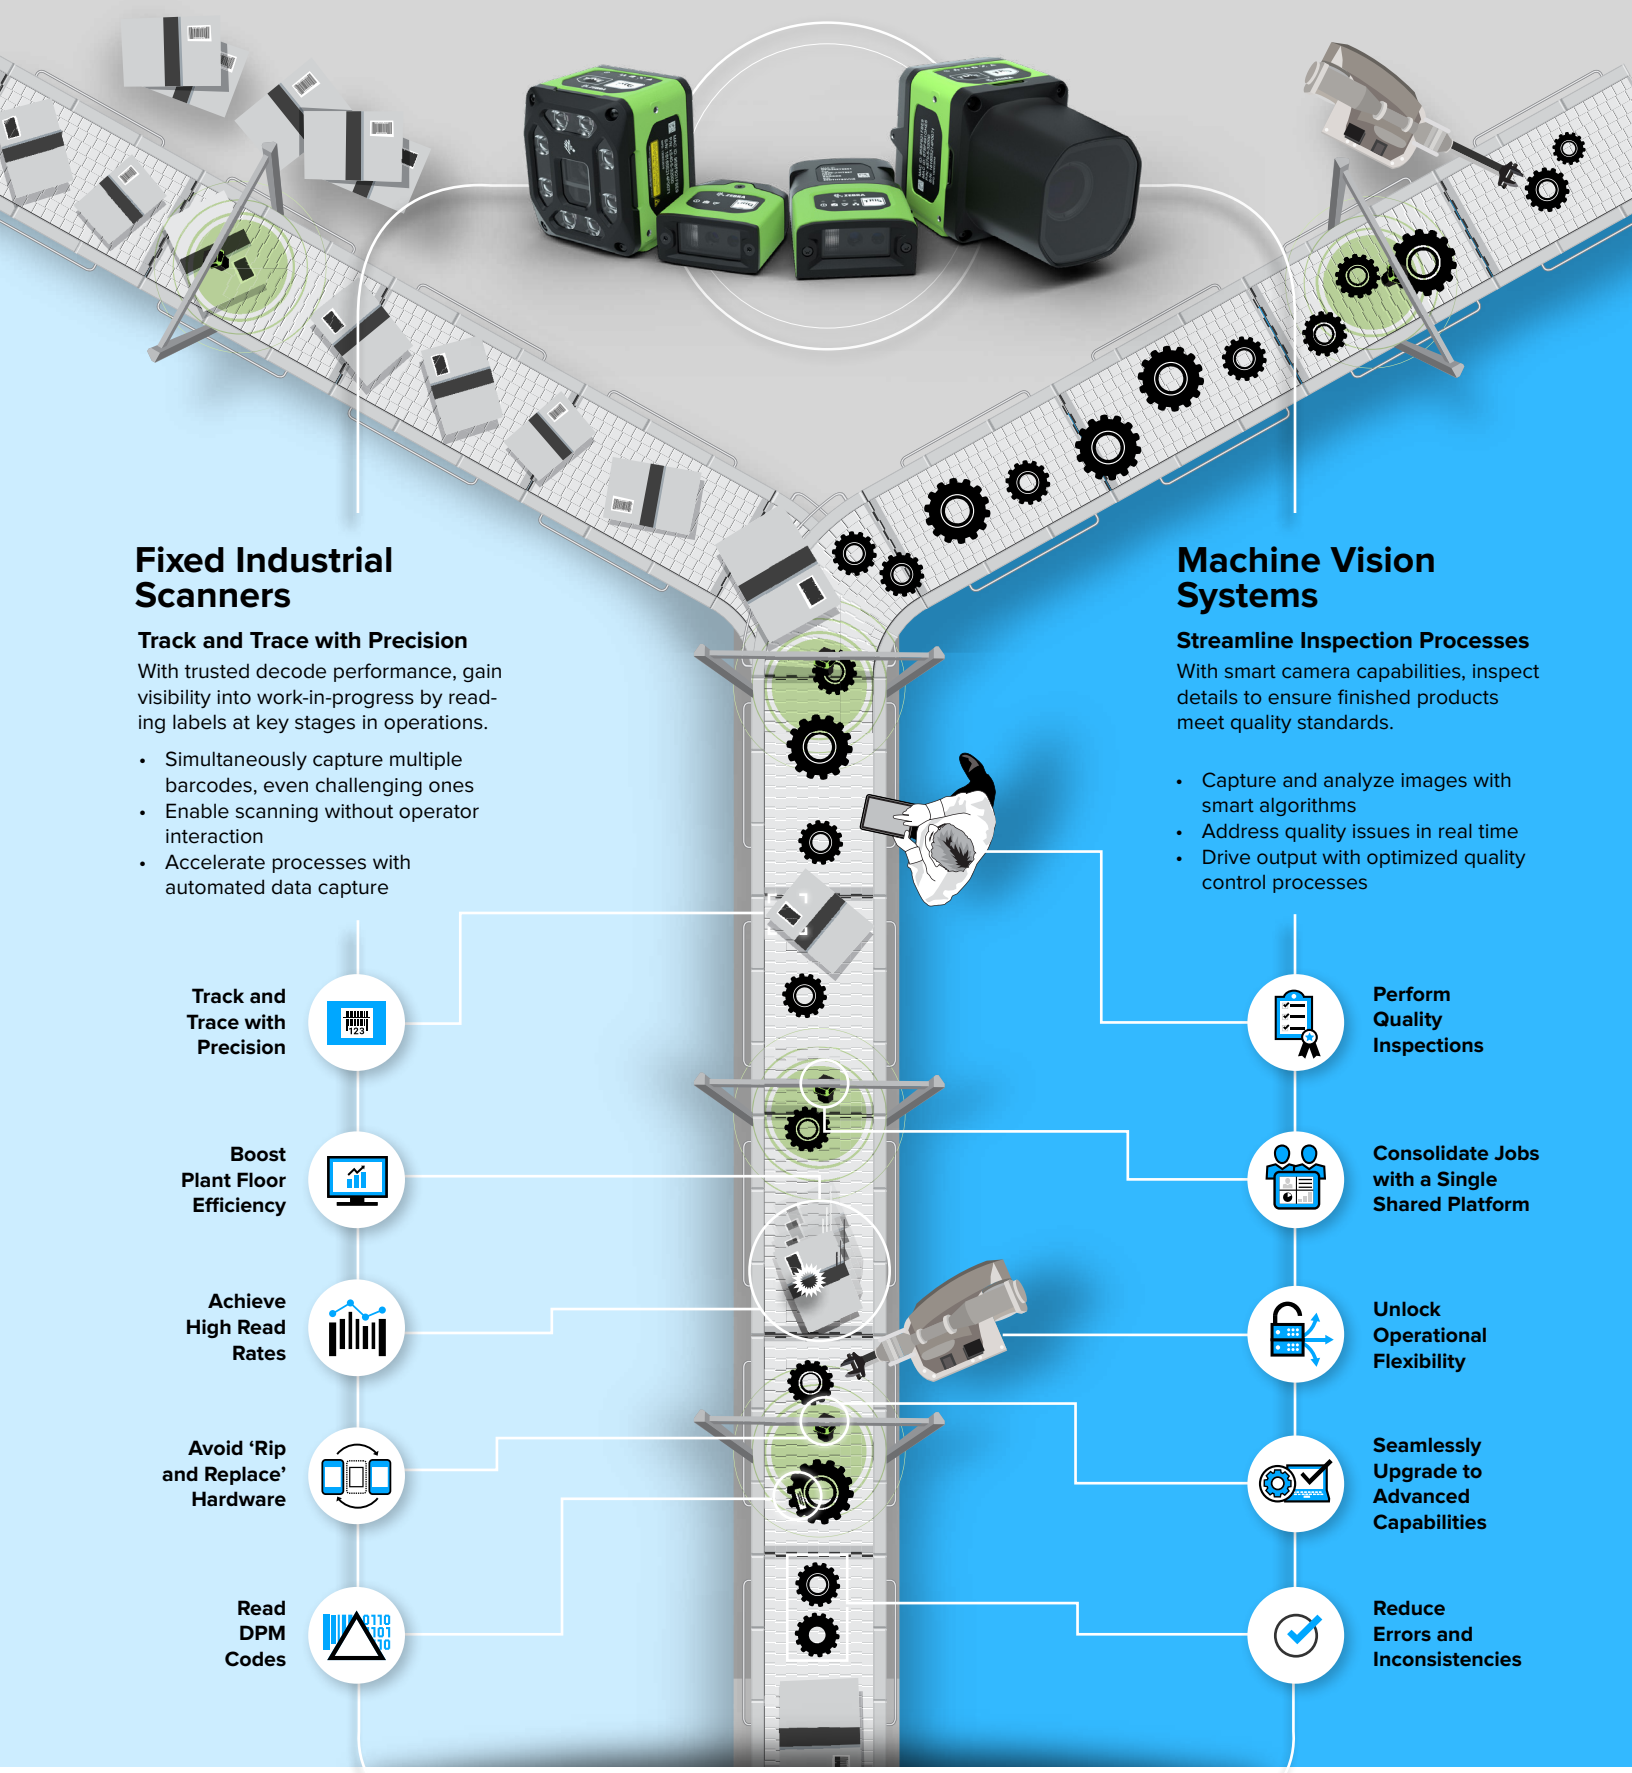

To exceed demands, barcode scanners have evolved from outdated laser-based technology to modern image-based readers — altering the fixed industrial scanning and machine vision landscape and merging the technologies.

From track and trace to quality inspections, let Zebra's Fixed Industrial Scanners and Machine Vision Systems inspire new productivity potential for your operations.

Two Technologies. One Software Platform.

Zebra Aurora™ brings a new level of simplicity to controlling enterprise-wide manufacturing and logistics automation solutions.

This simple but powerful interface is easy to set up, deploy and run.

Fixed Industrial Scanners

Track and Trace with Precision

With trusted decode performance, gain visibility into work-in-progress by reading labels at key stages in operations.

- Simultaneously capture multiple barcodes, even challenging ones
- Enable scanning without operator interaction
- Accelerate processes with automated data capture

Track and Trace with Precision

Boost Plant Floor Efficiency

Achieve High Read Rates

Avoid 'Rip and Replace' Hardware

Read DPM Codes

Machine Vision Systems

Streamline Inspection Processes

With smart camera capabilities, inspect details to ensure finished products meet quality standards.

- Capture and analyze images with smart algorithms
- Address quality issues in real time
- Drive output with optimized quality control processes

Perform Quality Inspections

Consolidate Jobs with a Single Shared Platform

Unlock Operational Flexibility

Seamlessly Upgrade to Advanced Capabilities

Reduce Errors and Inconsistencies

Experience the Difference

With the leader in data capture solutions behind you, along with a network of support, you'll automate tasks quickly and with confidence.

Discover new productivity potential for your operations with Zebra's Fixed Industrial Scanners and Machine Vision Systems. Visit www.diversifiedtech.net for more information.
