

# Fixed Scanners and Machine Vision Now Included in the GO Zebra Trade-In Program

Trade in your current handheld scanners, fixed scanners or machine vision cameras and save up to \$100 per device when you upgrade to Zebra's simpler and easier-to-use industrial automation technologies.

## Introducing Zebra's Industrial Automation Solutions

Zebra's revolutionary new industrial automation devices deliver both fixed scanning and machine vision in a single hardware platform, and there's just one powerful but easy-to-use software application to set up and configure your jobs.

### Fixed Industrial Scanners

Capture 1D/2D barcodes, DPMs and OCR text to automate production, inspect labels and packaging, and enable end-to-end traceability.

### Machine Vision Sensors

Use Zebra's powerful sensors to automate your visual inspections, packaging checks, process step confirmation, part and product counting, and robotic workflows.

## Save Money on Fixed Industrial Scanners and Machine Vision

Purchase Industrial Machine Vision and Fixed Scanners	End User Rebate
FS10, FS20, VS20	\$50
FS40, VS40, FS70, VS70	\$100

Trade in your qualifying handheld scanners, fixed scanners or machine vision cameras including non-Zebra products, and save \$50 to \$100 per device toward Zebra's superior new solutions.

# Zebra Fixed Industrial Scanning and Machine Vision

Solutions for Product Traceability, Process Automation and Visual Inspection

## A Powerful Line-Up of Devices to Suit Your Applications

### **FS10** Your Quick and Compact Solution

Just plug this small footprint Fixed Industrial Scanning smart camera into the USB port of a workstation, laptop, tablet or any other host device to capture bar-code data.

### **FS20/VS20** Your Easily Integrated Solution

Multiple connectivity options facilitate easy integration into your PLC or Host network, enabling primary Fixed Industrial Scanning and Machine Vision applications to feed the processes that drive your business.

### **FS40/VS40** All-in-One Solution

Tailor this adaptable Fixed Industrial Scanning and Machine Vision device to your specific needs by choosing from flexible options that include standard and wide-angle field of view, liquid lens options, built-in filters, and multiple illumination, power and connectivity options.

### **FS70/VS70** Fully Customizable Solution

Address complex imaging needs and make even the most challenging code reads or inspections easy to capture. Customize your Fixed Industrial Scanning and Machine Vision application by choosing from four image sensors and a wide range of c-mount lenses and lighting options.

## Buy the features you need today...upgrade to the features you need tomorrow.

Zebra's line of Fixed Industrial Scanners and Machine Vision Smart Cameras are built from the ground up to adapt to new business needs and changing customer demands. With this uniquely-Zebra device architecture, you can buy only what you need today, and upgrade to whatever technologies you need in the future. The result? A scalable path to new functionality as needs change — and maximum value out of the devices you purchase.

- Automated and Reliable Data Capture
- Proven Track-and-Trace
- High-Quality Image Capture
- Sophisticated Scanning and Image Analysis
- Robust Integration and Communication
- Fast and Simple Deployment
